1. Thanks 4 letting me take this survey
2. I would like to address the "storm water drainage" tax. Yes, I called it a tax, because THAT is exactly what it is! What am I paying for? No one can answer that question! Literally NO ONE!
3. This was surprisingly, a great survey. It made me think and there is a lot I am not aware of. Example: Where funding goes for schools? How many facilities do we have to help with drug and mental crises?
4. Government has become the thought processing system. People have the ability to use common sense of right and wrong. They just don't have to be accountable for their consequences.
5. FIX THE ROADS!!!!!!! OMG PLEASE!
6. The fact that we have someone on our city council, that is a known abuser blows my mind. Also, the fact that people throw money at him and support an abuser blows my mind.
7. I think you could really use some oversight when it comes to proofreading your Facebook posts. There are lots of capitalization errors, misuse of apostrophes, etc. It's very distracting and diminished the perceived validity and professionalism of the group. Even in this survey, there are grammatical errors and many words capitalized for no reason. I believe the group would be more respected overall if someone paid more attention to this. Thank you for your time.
